ARIANEGROUP IS COMMITTED TO CONTRIBUTING TO A SUSTAINABLE FUTURE BY SERVING SOCIETY, STRENGTHENING SOVEREIGNTY AND CONDUCTING ITS BUSINESS RESPONSIBLY

As a European rocket maker, we create advanced, reliable and competitive solutions for a safe and sovereign future. Sustainability is embedded in our strategy and guides the way we operate, innovate and create long-term value for people, environment and society.

OUR SUSTAINABILITY COMMITMENTS

SPACE FOR PEOPLE

DEVELOP

We develop highly skilled, committed and responsible employees who are able to tackle complex challenges while upholding the highest ethical and environmental standards. We foster a diverse and inclusive workplace by attracting, integrating, and developing all talents.

PROTECT

We protect our people by fostering a shared health and safety culture built on excellence and best practices. We anticipate and mitigate risks to provide a safe working environment while ensuring the continuity of our operations.

SPACE FOR ENVIRONMENT

ACT

We act for the transition by decarbonising our activities and reducing our carbon footprint in line with national and European trajectories. We strengthen the resilience of our operations by addressing the impacts of climate change and implementing appropriate adaptation measures in response to increasing frequency of climatic events.

PRESERVE

We preserve the environment by continuously improving our Health, Safety, Environment, Climate, and Energy management system, aligned with international standards. We promote the integration of ecodesign methodologies throughout the lifecycle of our products to reduce their environmental impact.

SPACE FOR PROGRESS

PROMOTE

We promote the highest ethical standards among all employees and act with integrity to protect ArianeGroup's invaluable image and reputation by conducting our business responsibly.

ENGAGE

We engage our partners to apply the same standards of integrity as ArianeGroup. We foster these standards throughout our supply and value chain to help prevent human rights and environmental violations.
